

Millennium Development Goal 1:

Eradicate extreme hunger and poverty

Habitat for Humanity is a non-profit making charity which aims to end poverty housing around the world. Several unit members volunteered to join a team going to Hungary in July 2007 to work alongside local families there to build affordable homes.

"If you get the chance to participate in a similar project, take it - fun, fellowship and improved horizons are guaranteed!"

UK Action idea: The MDGs are on the agenda of every country in the world, so every MP should know about them. Write to your MP to ask what is being done to realise these goals.
